OKLAHOMA HAY MARKET REPORT
2-22-18

Alfalfa trade moderate this week. Movement was mostly slow as winter storms brought rain, snow and ice to much of the state. Demand was generally good for all alfalfa, wheat and grass hay. Supplies of alfalfa are becoming extremely light. Prices only lightly tested this week but confirmed sales were fully steady on alfalfa. This week's precipitation is not expected to bring significant relief from the drought but will at least keep conditions from worsening. Wheat pastures across central and western Oklahoma continue to need more rain.

Much of western Oklahoma received very little or no rain and drought conditions remain even in most areas that received rain this week.

OKLAHOMA HAY MARKET REPORT
4-26-18

Alfalfa trading was at a near standstill this week as supplies and offerings dried up. Movement was likewise very slow with a few loads moving to areas in northwest Oklahoma affected by wildfire. Demand is very good but buyers are either looking out of state or waiting on new crop. Grass hay supplies are very light and much of the remaining offerings are of mostly fair quality mixed grass. Rain returned to the state this week but amounts varied from a few tenths of an inch to just under 2 inches. Many areas hardest hit by wildfire received rain over the past few days and more is in the forecast.

Alfalfa

Central Oklahoma: Premium quality large square bales last confirmed sales 165.00-175.00, few at 180.00.

Eastern Oklahoma: No sales confirmed.

Western Oklahoma: Premium quality large square bales 170.00-180.00. Several loads Fair to Good quality large square bales 140.00-150.00.

Grass Hay

Central Oklahoma: Good Bermuda 4 X 5 bales 45.00-60.00. Good mixed grass 4 X 5 round bales 30.00-45.00, mostly 35.00-45.00 per bale.

Western Oklahoma: Last confirmed sales: Good Bermuda horse quality 65.00-75.00 per bale in 5 X 6 bales. Good Bermuda cow hay 5 X 6 bales 50.00-70.00, 4 X 5 bales mixed grass 35.00-45.00.

Eastern Oklahoma: Mixed grass hay in 5 X 6 bales 40.00-50.00. Good Bermuda in 5 X 6 bales 50.00-65.00. Mixed grass 4 x 5 bales 30.00-40.00. Small square bales good mixed grass or Bermuda 4.00-6.00.

Yields of both wheat and first cutting alfalfa expected to be much lighter than average. The year's first severe weather including tornadoes hit the state on Wednesday but unfortunately brought little rain to the areas in greatest need of moisture.

OKLAHOMA HAY MARKET REPORT
6-14-18

Alfalfa trade was mostly moderate. Demand was moderate early, fairly good in late week trade. Movement was moderate to fairly active. Prices were fully steady. Lower than average first cutting yield have limited trade so far this year. Also, some growers chose to put at least a portion of the first cutting in the barn. With both alfalfa and early grass hay yields lighter than average both buyers and growers are concerned about light supplies later this year. Drought conditions are little changed from last week. Rains are forecast for next week.

OKLAHOMA HAY MARKET REPORT
6-28-18

Alfalfa trade was slow on good demand and light offerings. Prices were fully steady in the very limited trade. Much needed rain moved into the state this week and brought most haying activities to a standstill. Growers expressed optimism about improved yields on future cuttings following the rains. Grass hay activity was also mostly slow this week. Supplies and offerings are light to moderate and demand very good. This week's rains softened drought conditions but extreme to exceptional drought conditions persist in western Oklahoma and ground water supplies are becoming a concern in portions of southern Oklahoma.

Alfalfa

Central Oklahoma: Premium quality 180.00-200.00, mostly 190.00. Good quality large square and large round bales 160.00-170.00.

Eastern Oklahoma: Small square bales Premium quality 250.00-300.00 per ton.

Western Oklahoma: Premium quality large square bales 180.00-200.00, mostly 190.00. Good quality bunk hay 150.00-165.00. Fair quality large round bales 140.00-150.00.

Grass Hay

Central Oklahoma: New Crop: Wheat hay in round and large square bales 90.00-120.00 per ton, mostly 100.00-110.00 per ton. Mixed grass mostly 80.00 per ton.

Western Oklahoma: New Crop: Wheat hay mostly in round bales 100.00-120.00 per ton.

Eastern Oklahoma: New crop: Mixed grass hay in 4 x 5 and 4 X 5 1/2 bales 35.00-45.00, mostly 35.00 per bale.

Rain and cooler weather moved across the state this week bringing some relief to drought conditions. More rain is forecast for the coming week. Rains halted haying but growers are hoping the rainfall will provide a fourth cutting.

OKLAHOMA HAY MARKET REPORT
8-16-18

Alfalfa trade moderate to fairly active early, mostly slow late. Demand was good for all alfalfa offerings. Demand especially good from beef producers. Prices mostly steady. Moderate to heavy rains fell nearly statewide this week. For central Oklahoma this will go down as the wettest August on record. Rain and muddy conditions have brought fieldwork to a standstill and made loading and hauling hay difficult. Producers are hoping the much needed rains will result in another cutting of alfalfa and grass hay.

Alfalfa

Central Oklahoma: Supreme quality large square bales 210.00-230.00. Premium quality 185.00-200.00. Good quality large square and large round bales 160.00-180.00. Fair quality 150.00-160.00. Grinding hay mostly 140.00.

Eastern Oklahoma: No sales reported.

Western Oklahoma: Supreme quality large square bales 220.00-230.00. Premium quality large square bales 180.00-200.00. Good quality bunk hay 150.00-165.00. Grinding hay mostly 140.00.

Grass Hay

Central Oklahoma: Good quality Bermuda grass in 4 X 6 through 5 X 6 bales 60.00-75.00. Good quality mixed grass hay 4 X 5 and 5 X 5 bales 35.00-50.00 per bale. Mixed grass 80.00-90.00 per ton, mostly 85.00.

Western Oklahoma: Good quality mixed grass round bales 90.00-110.00 per ton. Mixed grass 5 X 5 1/2 to 5 X 6 bales 60.00-70.00 per bale.

Eastern Oklahoma: Mixed grass hay in 4 x 5 bales 30.00-45.00, mostly 35.00-40.00 per bale.

OKLAHOMA HAY MARKET REPORT
8-23-18

Alfalfa trade fairly active this week. Demand was very good for dairy and beef cow hay. Prices firm to 10.00 higher in both central and western Oklahoma. Last week's rains brought moisture to virtually all counties with amounts mostly from 1.75 to 5.08 inches. The exception was the panhandle area where 0.93 inches was reported. The much needed moisture increased optimism about fourth cutting possibilities. Grass hay prospects likewise improved with the additional rains.

OKLAHOMA HAY MARKET REPORT
9-06-18

Alfalfa trade moderate early but turned very slow late as widespread rains moved across the state halting field work and limiting movement. Demand was good for all alfalfa offerings. Prices steady to firm. Fourth cutting alfalfa is progressing much more rapidly than last year but yields are being reported as average to below average. Grass hay harvest progressed ahead of normal over the past two weeks.

Alfalfa

Central Oklahoma: Supreme quality large square bales 210.00-230.00. Premium quality 190.00-200.00. Good quality large square and large round bales 170.00-190.00. Fair quality 150.00-160.00. Grinding hay 140.00.

Eastern Oklahoma: No sales reported.

Western Oklahoma: Supreme quality large square bales 220.00-230.00. Premium quality large square bales 190.00-200.00. Good quality large round and large square bales 170.00-190.00. Grinding hay 140.00.

Grass Hay

Central Oklahoma: Good quality Bermuda grass in 4 X 6 through 5 X 6 bales mostly 100.00-120.00 per ton. Good quality mixed grass hay 4 X 5 and 5 X 5 bales 35.00-50.00 per bale. Mixed grass 80.00 -90.00 per ton, mostly 85.00.

Western Oklahoma: Good quality mixed grass round bales 90.00-110.00 per ton. Mixed grass 5 X 5 1/2 to 5 X 6 bales 60.00-70.00 per bale.

Oklahoma Direct Feeder Cattle Trade
9-07-18

Receipts: 2,652 Last Week 2,142 Last Year 3,948

Compared to last week: Few comparable sales of feeder steers sold firm. Feeder heifers lightly tested and steady to 2.00 higher. Tropical weather moved up from the south this week bringing heavy rains to many areas of the state. This great timing for wheat farmers as many had ground worked and will be ready to drill wheat as soon as the sun returns and it is dry enough to get back in the field. Receipts this week consisted of 100 percent over 600 lbs and 22 percent heifers. Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 8-12 cent slide on calves and 4-8 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.

Oklahoma National Stockyards
10-15-18

Total Receipts: 3,176 Last Week: 5,416 Year Ago: 7,972
Compared to last week: Where tested, steers under 800 lbs 1.00-3.00 lower, few over 800 lbs firm. Feeder heifers and heifer calves 3.00-6.00 lower. All classes of feeder cattle and calves lightly tested. Heavy rainfall continued to fall across much of the state over the weekend and the first cold front of the season pushed thru the state on Sunday. This hampered livestock movement and limiting receipts.

OKLAHOMA HAY MARKET REPORT
10-11-18

Alfalfa trade moderate. Movement was slow to moderate with heavy rains across the state hindering hauling. Demand was fairly good for all alfalfa and good quality grass hay. Fourth cutting is nearly completed and supplies and offerings remain light. Prices were fully steady. Wheat planting was 60 percent completed, up nearly 20 percent from last week and 4 percent ahead of average. Moderate to heavy rains across the state this week will result in some wheat acres needing to be replanted. At this time it is unclear how many acres were affected.

OKLAHOMA HAY MARKET REPORT
10-25-18

Alfalfa trade and movement very slow. More rains and colder weather contributed to slow sales and light demand. Dairy buyers are largely out of the market at this time and feedlot demand for grinding hay also turned light. Demand for good quality grass hay remains fairly good but most current offerings are being rejected for quality concerns. Winter wheat seeding reached 85 percent completion, up 5 percent from the same period a year ago. Winter wheat emergence at 62 percent is up 10 points from last year.

Wheat planting reached 78 percent completed this week, 10 percent below average. Winter wheat emergence reached 68 percent, unchanged from last year but 32 percent below normal.
