Re: Private Applicators Pesticide Training

In response to COVID-19, ODAFF is going to temporarily provide private applicators the opportunity to order their testing packet and take an open book exam as they have done in the past. We realize the need for farmers to be able to purchase pesticides so that they can care for their crops, and this will ensure they have that opportunity.

To order a test packet, please contact OSU University Mailing at (405-744-9037). The cost for the Private Applicator Packet is \$20.00, paid to OSU. After completing the exam, you will need to submit the \$20.00 license fee along with your completed Scantron answer sheet and license application form to ODAFF at the address listed on the application. You must also score a 70% or higher on the exam before your private applicator license will be issued.
