

Farmer's Market Price Report Stillwater

for Saturday June 25, 2016

Market Comments:

The weather was sunny and humid, but the heat did not deter customers. For the second week sweet corn was available in large quantities and hot weather crops like black eyed peas arrived for the first time, while some vendors still managed to produce cool weather produce like radishes. Many vendors had tomatoes, squash, and zucchini while a few had unique products like large white squash and Galia melons. Live musical entertainment was provided and three sunflower stems were being sold for \$5. The next report will be available mid-to-late July. *Please Note: Sizes of bunches, cartons, bundles, and other containers used at the farmer's market may vary vendor to vendor.*

Product	Production Practice	Unit of Sale	Lowest Price	Highest Price	Average Price of the Lowest Price and the Highest Price
